World Data Centers conduct international exchange of geophysical observations in accordance with the principles set forth by the International Council of Scientific Unions. WDC-A is established in the United States under the auspices of the National Academy of Sciences.

This catalogue is issued by WDC-A, Oceanography, which receives support for its activities from the National Science Foundation.

ABSTRACT

This catalogue lists the oceanographic publications received by World Data Center A, Oceanography, from 1 July 1969 through 30 June 1970. It was compiled by the staff of the Meteorological and Geostrophysical Abstracts of the American Meteorological Society.

This catalogue is the third supplement to the Catalogue of Accessioned Publications, 1957-1967, Washington, D.C., December 1967.

INTRODUCTION

The World Data Center system was established in 1957 to collect data from the numerous and widespread observational programs of the International Geophysical Year (IGY) under the principles set forth by the International Council of Scientific Unions (ICSU) and to make such data readily accessible to interested scientists and scholars. The system consists of World Data Center A (WDC-A) located in the U.S.A.; WDC-B located in the U.S.S.R.; and several WDC-C's located in Western Europe, Australia, and Japan. WDC-A is established under the auspices of the U.S. National Academy of Sciences where the Coordination Office is located. WDC-A is divided into nine discipline centers whose addresses are given on pages vi and vii. These centers are located in institutions which, in the opinion of the Academy, can best serve the interests of science because of their data handling capabilities for the appropriate scientific disciplines. WDC-A, Oceanography, is collocated with the National Oceanographic Data Center (NODC) in Washington, D.C.

ICSU first assigned responsibility for the operation of the World Data Centers to its Comité Spécial de l'Année Géophysique Internationale (CSAGI). After completion of the IGY programs, CSAGI's responsibilities were terminated in 1959. ICSU then delegated the responsibility for the operation of the World Data Centers in the post-IGY period to its Comité International de Géophysique (CIG). This function is now discharged by the ICSU Panel on World Data Centers. The framework for continued international exchange of data is set forth in CIG's Guide to International Data Exchange Through the World Data Centers (for the period 1960-onwards) and the Intergovernmental Oceanographic Commission's Manual on International Oceanographic Data Exchange

Each WDC is open to visitors and guest workers from any country; all data in the centers are accessible to visitors.

Arrangements can be made to borrow from WDC-A, Oceanography, any publication for which duplicates are available at the Center. This temporary use of publications may not exceed a period of one month, not including time of transmittal.

Copies or extracts of noncopyrighted materials may be provided on request, at a cost not to exceed that of reproduction and mailing. Details for obtaining data and information from the Center are given in the Catalogue of Data.

GENERAL INFORMATION

Arrangement of the Catalogue

This catalogue lists the publications received by WDC-A, Oceanography, from 1 July 1969 to 30 June 1970. To enhance the usefulness of the catalogue, suitable cross references are provided by means of keyword and author indexes.

The publications listed in the catalogue are grouped by countries of origin. Preceding each publication is an identifying catalogue number. The numbering system is designed after that used in other WDC-A, Oceanography, catalogues. The first two digits identify the originating country. The number assigned to each country is given in the Numerical List of Countries. The next two digits, after the decimal point, identify the contributing institution. The names of the countries and institutions are printed in capital letters at the beginning of each group of references, preceded at the left by their identifying numbers. In some instances, where specific institutions are not identified separately, the institution number is given as ".00". The final three digits following the dash represent the unique number for each document. This document sequence number is assigned in the order in which the publication is catalogued. For example, Argentina is number 01; the Servicio de Hidrografia Naval is .01. Thus, the first publication listed in this supplement will have the catalogue number 01.01-077. If a publication contains data that are listed in the Catalogue of Data, that catalogue number is cross referenced in parentheses after the publication information. For example: after publication number 02.01-185 information appears (WDCA-102.1 G-17) which shows that this publication contains data for cruise 102.1 G-17 in the Catalogue of Data.

In this Supplement, the articles that appear within some journals are indexed individually following the journal entry. For example: following publication number 02.01-197, the articles included in that publication are numbered 02.01-197.1 and 02.01-197.2. The decimal number is entered beneath the catalogue number.

In addition to serving as a means of sequencing the publications, the catalogue number constitutes a link between the indexes and the catalogue.

A brief section, which lists miscellaneous journals, reprints, and reports, may follow the last institution listed for a particular country.

Keyword Index

In the Keyword Index, the keywords in every title are placed in alphabetical sequence in capital letters. Below a keyword, all titles in the catalogue in which that word appears are listed. The corresponding catalogue number for each title is given at the left side of each column.

Author Index

The Author Index gives in alphabetical sequence the names of the authors of the publications listed in the catalogue. The corresponding catalogue number(s) follows the name.

ABSORPTION

- 37.08-081 Polar Cap Absorption in
.8 Antarctica, May 1967.
37.09-030 Estimate of Regular Ab-
.9 sorption in the High
Latitudes According to
the Data from Riometer
Observations.

ACCELERATION

- 14.02-016 Vertical Surface Accelera-
.3 tion in a Wind-Generated
Sea.

ADRIATIC SEA

- 23.02-009 Atlas of Bathythermograms,
Adriatic Sea Cruises
1965-1966.
23.02-011 New Harmonic Constants for
the Adriatic and Ionian
Ports.
23.03-009 Table of Tide Predictions
for Trieste and the North-
ern Adriatic for the Year
1970.

AIR/SEA INTERACTION

- 14.02-015 The Dissipation of Energy in
Wind-Generated Waves: a
Hypothesis.
14.02-016 Vertical Surface Accelera-
.3 tion in a Wind-Generated
Sea.
14.02-017 Wind Driven Currents near a
.4 Coast.
37.24-234 On Dynamical and Thermal
Interaction Between the
Atmosphere and Ocean.
37.24-235 Soviet Studies on the Theory
of Wind-Driven Waves.
39.21-066 Water Masses and Patterns of
Flow in the Somali Basin
During the Southwest Mon-
soon of 1964.

AKAROA (R/V)

- 04.04-023 Project Akaroa.

ALASKA

- 39.15-293 Transplanting Adult Pink
Salmon to Sashin Creek,
Baranof Island, Alaska,
and Survival of Their
Progeny.
39.15-295 Return and Behavior of Adults
of the First Filial Genera-
tion of Transplanted Pink
Salmon, and Survival of
Their Progeny, Sashin
Creek, Baranof Island,
Alaska.
39.15-296 Distributions of Fishes in

Fresh Water of Katmai
National Monument, Alaska,
and their Zoogeographical
Implications.

ALGAE

- 53.02-002 Algae of the Inland Aquatic
Environment, New for
Venezuela (Cyanophyta,
Chlorophyta).

ALGIERS

- 66.01-003 Pelagos--Bulletin de l'Insti-
tut Océanographique d'Alger,
Fasc. 10, 1968.

AMALTHEE (R/V)

- 13.11-053 Cahiers Océanographiques, Vol.
20, Supplement No. 2, 1969.

ANALYSIS

- 15.01-036 Die Abbildung superponierter
sinusförmiger Wasserstand-
sstörungen in Pegeln mit
poröser Durchfluböffnung.
15.01-039 Ausgleich von Pegelwasser-
ständen bei variablem
Durchflubkoeffizienten.
15.01-041 Mathematische Approximat-
ionen von Dichtesprüngen.
37.09-030 Typification of Pressure
.6 Fields According to Their
Natural Orthogonal Functions.

ANCHOVIES

- 30.02-017 Estudio de la Fecundidad y
Ciclo Sexual de la Anchoveta.
30.02-022 Contribution to the Study of
the Environment of the
Anchovy (Engraulis Ringens
J.)
30.02-024 The Sexual Maturity of the
Anchovy (Engraulis Ringens
J.) in the Reproductive
Period 1961/1968.
30.02-025 Una Nueva Medida de la Pesca
Por Unidad de Esfuerzo en
la Pesqueria de Anchoveta
(Engraulis Ringens J.) en
el Peru.
30.02-028 Contenido Estomacal de Ancho-
veta en Cuatro Areas de la
Costa Peruana.
FAO-074 Synopsis of Biological Data
on the Anchoveta (Ceten-
graulis mysticetus, Günther,
1866).
